## PRESS KIT

### ABOUT CURRENT

Current is a leading consumer fintech platform transforming financial access for everyday Americans. We're focused on building integrated solutions to solve needs that stand between Americans and their financial goals, making it easier for everyone to build the future they deserve. To learn more about us, visit <http://www.current.com> or download our app on the App Store or Google Play.

Current is backed by investments from Andreessen Horowitz, Tiger Global Management, Avenir, Wellington Management, General Catalyst, Cross River, Foundation Capital and QED Investors.

### CURRENT ACCOUNT FEATURES:

- **Faster direct deposits:** Members receive their paychecks up to two days faster with direct deposit.
- **Credit Building:** Personal account members can build credit history with a secured charge card that is connected to their available spending balance. Members have a single spending balance to view and manage on Current's platform and can spend only up to the funds available in their account, which are reserved to pay a member's bill each month, allowing them to build credit safely as their on-time payments are reported monthly to the three major credit bureaus (Equifax, Experian and TransUnion). It also provides members access to the same features on Current's platform without monthly account fees, credit checks or deposit minimums.
- **Paycheck Advance:** Qualifying members can access up to \$750 of their upcoming paycheck without any mandatory fees. Advances are available for free within three business days or instantly, for a fee. Members can become eligible through receiving eligible payroll deposits with amount eligibility determined through a variety of factors,

including maintaining a consistent payroll amount every month.

- **Current Boost:** Any member who signs up for a personal Current account can potentially receive a Boost rate of up to 4.00% on the portion of balances up to \$2000 per Savings Pod, on up to three Savings Pods, from Current by adding money to their Savings Pods and enabling the Current Boost feature. Only members who receive and maintain a qualifying payroll direct deposit of \$200 or more in their Current accounts are eligible for the Boost rate of 4.00%. Members can seamlessly transfer money between Savings Pods and their spending balance and Interest is paid daily.
- **Cryptocurrency:** Members can buy and sell dozens of crypto coins without trading fees with their funds on Current and instantly access funds earned from their cryptocurrency sales directly in their Current Account.
- **Fee-free overdraft:** Qualified members overdraft up to \$200 without overdraft fees.
- **No overdraft or hidden fees for any members.**
- **No minimum balance requirement and no minimum deposit required to open an account.**
- **Earn points and get cash back:** Eligible members can earn points from purchases made with their Current credit-building secured charge card at restaurants and grocery stores redeemable for cash.
- **Instant gas hold removals:** Members get their remaining gas hold instantly removed after their fill up at the pump. (i.e. when a gas station places a \$100 hold on an account before a \$20 fill-up, Current immediately adds the \$80 back to the member's account).
- **Industry-leading 24/7 member support:** Current offers comprehensive support for members via phone, live chat and email. Support is available via live chat and email **24 hours a day, seven days a week, 365 days a year.**
- **Instant spending notifications:** Members receive push notifications with transaction details as soon as their card is swiped, allowing for more visibility into spending and also security to monitor any suspicious activity.
- **Savings Pods:** Members can automatically save money into different 'savings pods' using scheduled deposits and use round-ups every time they swipe to automatically allocate funds for specific purchases. This money then is no longer available in their spending balance but can be instantly unlocked when it is ready for use.
- **No ATM fees:** Members can withdraw cash from their accounts without any ATM fees at over 40,000 in-network Allpoint ATMs in the U.S.

- **Add cash:** Members can add cash instantly into their Current account at over 60,000 participating stores.
- **Mobile check deposit:** Members can deposit physical checks into their Current account using their phone's camera.
- **Instant, fee-free money transfers:** Using their personalized Current ~tags, members can instantly send or request money via Current Pay to other members on Current without any transfer fees.
- **Tools for money management:** Members have tools to help manage their expenses, including options to create individual monthly budgets for specific spending categories. In addition, members have insights into their spending, including how much money they have spent in a month vs. how much they have earned.
- **Top level security:** Each Current card comes with an EMV chip and the latest technology. In addition, members have the ability to block transactions from specific merchants to further heighten their card security and minimize risks for fraud.
- **FDIC Insured:** FDIC insurance of up to \$250,000 is available on customer funds through pass-through insurance at Choice Financial Group, Member FDIC, and Cross River Bank, Member FDIC.
- **Works with Apple Pay and Google Pay:** For faster and more convenient purchases.
- **Teen banking:** Current also offers custodial accounts for those under 18. These accounts allow teens to learn financial responsibility and independence with their own account and debit card. The accounts also give parents the ability to instantly transfer money to teens in a convenient and secure way and full visibility into spending and balances.

Current Personal and Teen Accounts have no monthly or yearly subscription fees. Signing up for an account takes just two minutes.

## EXECUTIVE BIOS

### Stuart Sopp, CEO and Co-Founder

Stuart Sopp is the CEO and Co-Founder of Current, a leading consumer fintech platform transforming financial access for everyday Americans. From 1999 - 2014 he spent his career developing and trading financial systems at Morgan Stanley, Citi and Deutsche Bank. He started Current after recognizing that the growing inequality gap could be addressed through innovation in technology to improve financial outcomes for everyone.

## Trevor Marshall CTO and Co-Founder

Trevor Marshall is the Co-Founder and Chief Technology Officer at Current, a leading consumer fintech platform transforming financial access for everyday Americans. A graduate of Columbia University with degrees in math and computer science, Trevor worked on automating trading strategies at Morgan Stanley and built applications on distributed ledger technology before creating the foundation for Current. In 2015, he began building the Current Core, Current's proprietary banking technology, which provides stability, faster money and cost savings that are passed onto customers, and allows Current to provide experiences that cannot exist on traditional banking infrastructures.
